

**DoubleTake Consignment
Environmental Policy Statement
August 2017**

For 25 years, DoubleTake has been a local leader in luxury consignment. We pride ourselves on being at the forefront of consumer needs- consistently providing quality at an accessible price. In the same vein, we acknowledge that the needs of today's consumer include doing business in an environmentally friendly manner. As a business based on reuse, sustainability is built in to our very structure. The goal of our policy is to see that these values are carried through to our broader corporate practices, and our employees are engaged in creating sustainable processes.

Principles of Our Environmental Policy:

- Operate in compliance with state and local environmental regulations
- Minimize our environmental impact by reducing or eliminating waste and employing environmental best practices
- Consider environmental implications in decisions and activities
- Promote awareness of sustainability among employees, and positively represent this value to all stakeholders
- Purchase products in line with our Environmental Preferable Purchasing Program, which favors recycled, energy efficient, and low toxicity products
- Review our policies and practices on an annual basis and encourage continual improvement to the sustainability of our business practices

Signed,

A handwritten signature in black ink, appearing to read 'MK', followed by a long horizontal line extending to the right.
