## Policy Statement on Annual Environmental Goals

At Hyatt Creative Design, we are committed to promoting sustainable practices and reducing our environmental impact. As part of this commitment, we have established annual environmental goals to guide our efforts in minimizing our carbon footprint and promoting environmental stewardship.

Our annual environmental goals are developed by our sustainability leader and are designed to align with our broader environmental policies and practices. Our goals focus on key areas of our business operations, including sustainable design, waste reduction, energy conservation, responsible purchasing, contractor education and community engagement.

Each year, we set ambitious yet achievable goals to advance our sustainability efforts and promote environmental stewardship. We regularly monitor our progress and adjust our strategies as needed to ensure that we are meeting our targets and continuously improving our environmental performance.

Our annual environmental goals are an essential component of our commitment to sustainability and environmental stewardship. They provide a framework for our efforts to minimize our environmental impact, and they serve as a roadmap for continuous improvement.

We are committed to working toward our annual environmental goals and to advancing our sustainability efforts in all aspects of our business operations. We believe that by setting ambitious targets and working collaboratively, we can make a meaningful contribution to a more sustainable future for all.
